Implementing agency: Green for Growth Fund (GGF)

Ex post evaluation report: 2019

All figures in EUR million	Investment (Planned)	Investment (Actual)	CM (Planned)	CM (Actual)
Investment costs (total equity of the fund)	135,1	135,1	23	11,3
Financing by FC since the beginning of the fund (only C-Shares)	61,5	61,5	6,0	4,2
of which BMZ budget funds	61,5	61,5	6,0	4,2

*) Projects in the 2014 sample, volume EUR 8 million and EUR 1 million CM.
In the following years the trust participation and the BM increased several times.

The ex-post evaluation serves two purposes, accountability and systematic learning. That is the reason, why the executive summaries of the reports are normally published in the internet. In some exceptional cases, those summaries cannot be published, e.g. due to contractual clauses.
